

HDMI to VGA Converter with Stereo Audio - 4K@30

The Comprehensive CCN-HV201 HDMI to VGA Converter is a high-definition video converter which converts a HDMI digital signal to a VGA analog signal with analog audio!

Comprehensive's CCN-HV201 HDMI to VGA Converter is a high-definition video converter which converts a HDMI digital signal to a VGA analog signal with stereo audio. The HDMI signal connection can be from a PS4, XBOX One, Blue-ray DVD, or HD set-top boxes. The HDMI to VGA Converter supports UHD resolutions up to 4Kx2k@30Hz. Users can easily watch HD Video on a TV's VGA input when it does not have a HDMI input. Handy for connecting your HDMI output from your laptop in a conference room that only has a VGA input. The Converter has a female HDMI and female VGA connector, which allows the unit to be placed away from your computer with a HDMI cable. Covered by our 3 year warranty.
