

USB 3.1 Type-C 4 Port USB 3.0 Hub

Comprehensive's USB 3.1 Type-C Cable Adapter Supports Data Transfer Rates up to 5Gbps.

Comprehensive's SuperSpeedplus 3.1 Cable provides for simultaneous operation of SuperSpeed (USB 3.0 speeds) and non-SuperSpeed (USB 2.0 speeds) information exchanges. SuperSpeedplus USB brings significant power and performance enhancements to the popular USB standard - by offering backwards compatibility to earlier versions of billions of USB-enabled PCs and peripheral devices, currently in use by consumers. Four SuperSpeed ports allow you to connect an almost limitless number of USB devices including modems, scanners, printers, PC cameras, digital cameras, keyboards, telephones and other high-tech appliances. The USB Type-C connector is reversible and can be plugged in no matter if placed up-side-down or right-side up, eliminating primary frustrations with getting the port insertion "just right".

USB Type-C offers a low profile, robust design, which is more durable compared to the previous versions of USB connectors. Comprehensive's USB 3.1 cables feature high quality Shielded Twisted Pair (STP) construction, to block electro-magnetic interference and ensure reliable data communication.

Features

- Provides high speed connection for USB 3.1 Type-C peripherals
- 4 Port USB 3.0 Adapter
- Plug and play functionality for printers, scanners, keyboards and other digital devices
- Compatible with USB specifications up to 3.0
- Molded Strain Relief
- RoHS Compliant
- 3 Year Warranty

Specifications

Connector Type 1: USB C Male

Connector Type 2: 4x USB A Female

Performance Grade: Great

OS Compatibility: Compatible with Windows/10/8/7 (Not compatible with Mac or Dell PCs)

Jacket: PVC

Jacket Color: Black

Weight Lbs: 0.3

RoHS Compliant: Yes

Warranty: 3 Year
