

## Pro AV/IT Integrator Series™ Ultra High Speed 8K AOC Plenum HDMI Cables with ProGrip™ up to 100ft

Comprehensive's Pro AV/IT Integrator Series™ Active Optical Plenum HDMI Cables offer best-in-class resolution and a low-smoke, fire-retardant plenum jacket.

Comprehensive's Pro AV/IT Integrator Series™ Active Optical Plenum HDMI Cables feature full Ultra HD, 48G 8K@60 4:4:4\* End to End resolution. They enable ultra-high-speed, plug-and-play HDMI 8K/10K signal transmission up to 100ft. Perfect A/V distribution for conference rooms, classrooms, digital signage or other commercial applications. Comprehensive Active Optical Plenum HDMI Cables use active components in the connectors to perform electrical-to-optical signal conversion, drawing power from the HDMI port. Each Active Optical Plenum HDMI Cable is thin, light, flexible, and plenum rated to make it easy to pull through conduit.

Pro AV/IT Active Optical Plenum HDMI Cables send video using light pulses, which provide higher immunity to EMI/RFI interference and electromagnetic noise. HDR, EDID, CEC, HDCP, RoHS compliant and are backed by Comprehensive's Worry-Free Lifetime Warranty.

### Important notes:

- These are Active Fiber Optic Cables which contain an active chip to process and distribute the signal. In some cases, there can be performance or compatibility challenges with certain laptops, PC's or other sources depending on a variety of system conditions. Please call our support department if you experience any of these types of issues.
- This cable features a unidirectional design which requires the cable to be installed in the correct direction. The HDMI connectors are labeled "Source" and "Display" to ensure that the device and HDMI source are properly connected.
- Being a Fiber Optic Cable, it must be handled with more care than a copper cable during installation as extreme force and/or excessive or sharp bends could potentially damage or break the cable inside.
- External Power Option Included : In case if needs additional power, an USB power cable is included to provide external power option.
- Optional HDMI Power adapter Included: In the event the active Optical Plenum HDMI Cable needs additional power; an HDMI/USB power adapter cable is included to provide external power to support some HDMI AV equipment that does not supply the sufficient 5V to the active chipset inside the Fiber Optic Cable. Please note the Power adapter cable should be placed at the Source end.
